

# 33rd Economic Forum

Time of New Leaders – Shaping the Future  
Together

Karpacz, 3-5 September 2024

## Discussion panel

### Building Resilience in Uncertain World

 Society 4.6

 2024-09-05, 17:15 - 18:15

 4.6 Society 4.6

Building the desired future while passing the stage of a highly uncertain world requires the guarantees of resilience. Countries, governments, local communities, businesses and individuals have to be able to withstand the unpredictable risks, which often arise in complementary sectors and have a cascade nature. What underlays the resilience in the times of overall changes? How does rigid resistance develop into adaptive resilience? What should be the complementarity of stakeholders? How technologies and communications can promote or impede resilience?

## National Institute for Strategic Studies

The National Institute for Strategic Studies is a major institution of analytical and prognostic support to the President of Ukraine. The NISS carries out researches in economic, social, regional, humanitarian, security and defense and foreign affairs policy. The results of the studies are submitted to the President, the National Security and

Defense Council of Ukraine, ministries and parliamentary committees, published in academic papers and presented at public discussions, organized by NISS.
